

# 2 QUOTES AND A ~~LIE~~

## The Rules:

1. Decide whether you will play individually or on teams (if you choose to play the team version, have each team pick a team captain), and choose a Game Master, who will read the quotes and keep track of the score.
2. Choose a category (or play the Deluxe Read Local Version by reading clues from all three categories).
3. Game Master will read the book title, author's name, and one-line book description. Then, they will read each of the three quotes, one at a time. (Make sure to mix it up, so players won't know which one is the made-up quote!)
4. Players may ask for any or all of the quotes to be read again, if they are having trouble deciding which one is the lie.
5. Let everyone guess which quote is the lie. For individual play, have everyone write their guesses on a piece of paper. For team play, the team captain will give the answer for their team.
6. After everyone has made their guesses, reveal the correct (incorrect?) answer.
7. Score 1 point for every correct answer. In case of a tie, the person who had the most correct answers IN A ROW wins.
